Athlete Information

Athletic Code of Conduct: (excerpt taken from the CCS Middle School Athletic Handbook. For a full Athletic Code of Conduct please visit the [CCS Athletic Website](#)).

****Disclaimer-** NCIMS holds student-athletes to a high standard of behavior and academic expectations and reserves the right to place additional or more stringent guidelines for athletic participation, which is a privilege, not a right.

Participation in any athletic activity is an important part of the educational experience in the Cumberland County Schools. A primary goal of such activities is to teach students character and self-discipline skills that will enable them to develop to their highest potential. As role models for their peers and younger students, students who participate in athletic activities ("participating students") are held accountable for their actions at a higher standard than other students. Because of the public nature of the athletic programs sponsored by the Cumberland County Schools, participating students are expected to conduct themselves in a manner that will reflect the high standards and ideals of their school and community. The participating student-athlete becomes subject to this Code of Conduct upon the student's signature and date on his/her Cumberland County Middle Schools Student-Athlete Eligibility and Permission Form and continues until graduation from high school.

Participating student-athletes are subject to this code at all times during the calendar year, including summer months, whether on or off-campus. For summer month violations, any discipline or punishment imposed would go into effect at the next scheduled athletic activity by the student-athlete. This Code of Conduct is, in addition to, any specific team/activity rules or regulations established by the individual programs.

***1. DRUGS AND ALCOHOL**

The possession, use, distribution, and/or sale of illegal or counterfeit drugs/alcohol, including possession of paraphernalia for ingestion of such substances by participating students is not acceptable and prohibited. If school officials receive credible evidence, such as a police report or criminal charges related to a drug or alcohol offense, or have a reasonable suspicion that a violation under this section has occurred, the school officials will investigate. If after investigation of the charges, school officials determine that the participating student committed the violation, he/she shall be subject to disciplinary action. Every effort will be made by the school and individual activity programs to make participating students aware of the detrimental effects of drugs and alcohol. Students and/or parents of students suspended under this section will receive information regarding counseling. Any participating student found in violation of this offense at any time while on any school premises, including activity buses, other school-approved transportation, or off-campus, will be suspended from athletic participation until further review by the school athletic director, principal, and director of Student Activities.

***2. TOBACCO USE (Principal's decision is final)**

Participating students found to have used tobacco while subject to this Code will be suspended from participation as outlined:

First Offense: The student-athlete will be suspended for a minimum of 10% of the next consecutive athletic contests, not including scrimmages. The suspension may require being served over two seasons if the incident occurs near the end of the first season. At the discretion of the head coach, the student-athlete may practice with the team during this suspended time frame and be allowed to travel with the team. Also, at the head coach's discretion, the student-athlete may be on the sideline or bench with the team's inappropriate attire.

Second Offense: The student-athlete will be suspended for a minimum of 20 % of the next consecutive sports season games/contests, not including scrimmages. The suspension may require being served over two seasons if the incident occurs near the end of the first season. At the discretion of the head coach, the student-athlete may practice with the team during the suspended time frame and be allowed to travel with the team. Also, at the head coach's discretion, the student-athlete may be on the sideline or bench with the team in appropriate attire.

Third Offense: The principal will suspend the student-athlete from all interscholastic activities for 45 days or the remainder of the season, whichever comes first.

***NOTE:** These rules are meant as minimum consequences. The principal, athletic director, or coach has the discretion to increase the consequences as he/she feels are most beneficial to his/her athletic program or team.

3. CRIMINAL CHARGES

A participating student-athlete charged with a criminal offense, misdemeanor, or felony will be suspended from athletic participation until further review by the principal and director of student activities. A student convicted of a felony offense will be immediately suspended from all athletic participation according to the State Board of Education Policy. The participating student-athlete must inform his or her coach or appropriate staff of any criminal charges against them as soon as practicable, but no later than the student's next participation in any athletic event, to include practices, rehearsals, etc.
