Affiliated with and administered by the National Academy Foundation (NAF), the Academy of Information Technology (AOIT) is designed to facilitate the transition from high school to more advanced training and eventually a career in the information technology industry.

In a small learning environment students are introduced to career opportunities in today's digital workforce and equipped with the personal, analytical, technical, and communication skills needed.

Academy students can graduate from high school with 18+ hours of tuition-free college credit.

Using hands-on activities in the FTCC course, Hardware /Software Support, students gain technology skills that prepare them for CompTIA A+ Certification & MTA Certification which are recognized by today's major industries.

Computer Refurbish

Students use learned technical skills to recycle discarded computers for needy families.

AOIT Non-Food Drive

Participation in work-based learning and community service activities are important elements of the academy program.
